Landfill Testing:

Mark Popham came in to discuss his findings of the Landfill Testing he did in December of 2013. M. Popham spoke about how the Site Inspection he did went well. Everything was secure and the assessment of current groundwater and gases were good. M. Popham also gave a report of his findings to be sent to the DEP which shows that the last seven years of data was very stable, nothing has changed, and he wrote a supporting narrative which states that there is no reason we could not reduce our testing. Chairman Larson will write a cover letter to be sent along with the packet of information that M. Popham gave to us to DEP requesting a reduction in testing.

Rabies Clinic:

The Rabies Clinic will be done at the Templeton Veterinary Clinic on February 15, from 12 P.M-2:00P.M with Dr. Nygard. There is an ad going in the Gardner News on February 13, 2013. We will be trying to have one now and one in the summer/fall with the Hubbardston Veterinary Clinic.

General Bylaw Review:

Joyce Green asked the board to review the general bylaws Chapter X, Board of Health. The Board reviewed them and concluded that the only pertinent bylaw in there is Section 1. Household Waste. The Board then voted what to keep and what to dissolve.
