Notes:

We are still continuing the Smoke and Carbon Monoxide Installation Program. Hubbardston Firefighters will deliver and install these life saving devices completely free of charge thanks to funding from a SAFE grant. We are ideally targeting homes that have elderly or small children living in them, but anyone who qualifies for the program is strongly encouraged to participate. This service is available only to Hubbardston residents. Please see the attached flyer for more information, we look forward to working with you to make our community safer one home at a time. Please share this post with your friends so we can get the word out to as many people as possible, thank you!
